Introducing the ARTIC Project

A world-class, development opportunity is emerging in Southern California. The Anaheim Regional Transportation Intermodal Center (ARTIC) will combine a transportation gateway and mixed-use activity center on a 16-acre site owned by the City of Anaheim.

Regional Connectivity and Beyond

ARTIC will serve as a hub for Orange County and the region, a landmark where freeways, major arterials, bus routes and Orange County's backbone rail system converge. The network of transit choices will continue to grow in the coming years as the number of Metrolink and Amtrak trains serving Anaheim and local and express bus routes increase. On opening day, ARTIC services will include: Metrolink, Amtrak, OCTA bus, Anaheim Resort Transportation, shuttles, taxis, and tour and charter buses. ARTIC will also accommodate future plans for the Anaheim Rapid Connection (ARC) and high-speed trains.

Orange County

Located in the heart of Southern California, Orange County is a dynamic and diverse community that is home to more than 3 million people. Encompassing 34 cities and nearly 800 square miles, Orange County is the 5th most densely populated county in the nation.

Deeply rooted in the present and firmly focused on the future, Orange County is an unparalleled place to live, work and play. The metropolitan area continues to thrive even in challenging economic times. Orange County has a high-quality labor force, residential desirability, and an established education, recreation and cultural base. The local economy, proximity to jobs and strong market fundamentals will keep Orange County flourishing into the future. Orange County is also a popular destination attracting more than 40 million visitors annually with over 20 million coming to Anaheim.

ARTIC COMPONENTS

TRANSIT CENTER & SUPPORTING FACILITIES

- ▶ Multimodal transit station
- ▶ Civic space
- ▶ Retail uses
- ▶ Bike access to the Santa Ana River Trail

TRACKWORK AND PLATFORMS

- ▶ Expanded platforms
- ▶ Pedestrian under and over crossings

PARKING

- ▶ Surface parking

“Anaheim’s economy and culture depends on a healthy and diverse transportation system. The City of Anaheim has been a leader in moving ARTIC from a vision to a reality. Through continued public and private partnerships, ARTIC will soon be a major hub of transportation for the entire Southern California region.”

– Anaheim Mayor Tom Tait

Vision

ARTIC will be a transportation facility where people will seamlessly move between transit services to reach Southern California activity centers and business districts. Transit oriented development in the immediate area will integrate with ARTIC to form a vibrant Southern California community. Together, it will represent Orange County’s continuing transformation from rural farmland and suburban community to a thriving metropolis.

Form & Function

ARTIC will be an iconic regional landmark. The station will accommodate passenger arrivals, departures and transfers with supporting retail, restaurants and passenger services within the building. Upon completion ARTIC will increase mobility options for residents, business, commuters and visitors to Anaheim, Orange County and the entire Southern California region.

Designed to be environmentally-friendly with a LEED Platinum goal, ARTIC will also include interior and exterior public plaza areas, public art, landscaping, amenities such as electrical vehicle charging stations, and bicycle access to the Santa Ana River Trail. The ARTIC Project will also improve pedestrian access along Douglass Road and enhance pedestrian connections to the Honda Center and Angel Stadium of Anaheim.

Construction and Next Steps

The City of Anaheim selected Clark Construction Group – California, LP, one of the nation’s most experienced and respected providers of construction services, to construct ARTIC. Construction commenced September 2012 and is scheduled to conclude late 2014.

Regular project updates, including construction progress photographs are available on the project website, ARTICinfo.com.

PROJECT SCHEDULE

Award of Construction Contract:
August 2012

Construction Broke Ground September 2012:
August 2012

ARTIC Opening:
Late 2014

CURRENT FUNDING SOURCES

Measure M2 / Project T: **\$74.1 million**

Measure M Transit Revenue: **\$43.9 million**

2008 State Transportation Improvement Program: **\$29.2 million**

Federal Sources: **\$38.0 million**

TOTAL: \$185.2 million

NOTE: The total funding of \$185.2 million dollars does not include \$3.6 million for Environmental Studies, for a total ARTIC funding of \$188.8 million.
